

Due Date: 5/1/2008

Objective: To Design Faculty Web page and Final Grade Sheet

Refer Sample attachment for details:

Part I : (Group Project) - 60 points

- Form a group of two students
- Insert a Documentation sheet with the title of your project, Group members and percentage of effort (total 100%) put in by each member in a table format. **(word 2007)**
- You will be given Faculty picture and Name List. Refer Faculty bulletin board in Building B. Select a Faculty member and get the following information from Faculty:
 - Resume including
 - Education:
 - Awards:
 - Experience:
 - Courses Taught:
 - Projects:
 - Skills:
 - Conferences:
 - Professional Activities:
 - Voluntary activities
 - Committees served
 - Add /Delete any other pertinent fields as necessary.
 - How many Exams, Quizzes, Assignments etc does the faculty member assign and how is the final letter grade calculated **(Excel 2007)**
 - Draw Graph to represent summary information. Must use formulas to count. Format spreadsheet as shown in class.
- Collect data and requirements to create a document using word 2007 application. **(word 2007)**
- Enter fake data (scores and names) in to the formatted spread sheet that you have created for the grade sheet of the faculty member. Analyze the data using formulas in a excel spreadsheet application. Draw appropriate graphs. Find the Class average, highest and lowest score.
- Create a presentation about the information and statistics collected along with your results and analysis. **(Power Point 2007)**
- Create a Web Page that will display all the information ready to be published on the web / internet. **(Web Design)**
- Use audio and video content where necessary.
- Format your document professionally.
- E-Mail an electronic copy of all of your project files to the instructor at spinnepalli@rpcc.edu
- Submit hardcopy of your files in a manila folder.
